# Lingolet Interpreter Pro Device Specifications

The Lingolet Interpreter Pro connects two people to an interpreter via voice or video. Both sides can see the interpreter for simultaneous interpretation by 4000+ certified translators in 300+ languages with OPI or VRI worldwide 24/7 with 30-second setup. The most popular languages can be displayed on the home screen to be able to quickly make a selection and get connected through an audio or video call. The built-in microphone and speakers enhance the quality of the call which is essential for effective communication.
