

User Guide for Lingolet Interpreter Video

Connect to an interpreter with the Lingolet Interpreter Video in a few simple steps:

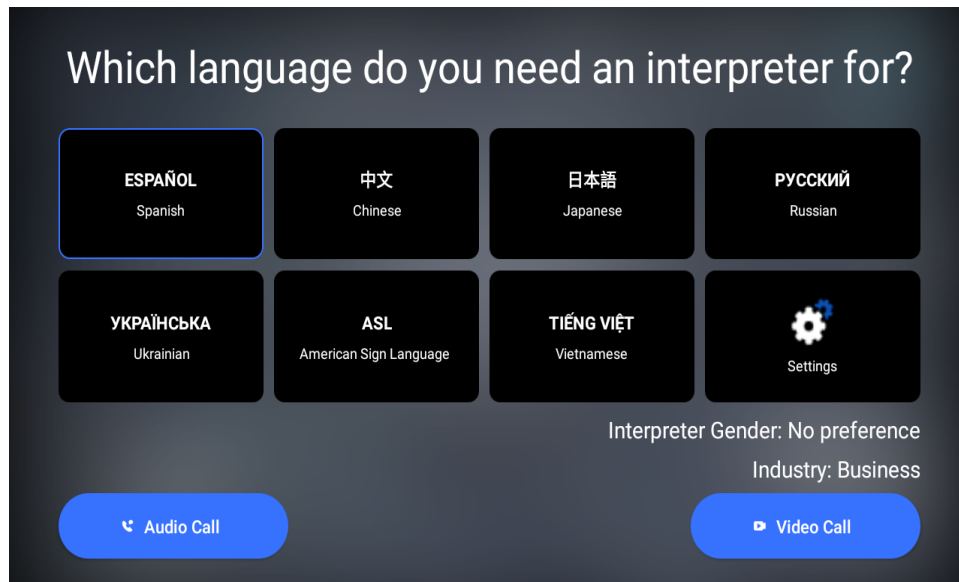

1. Power on the device and connect to wi-fi:

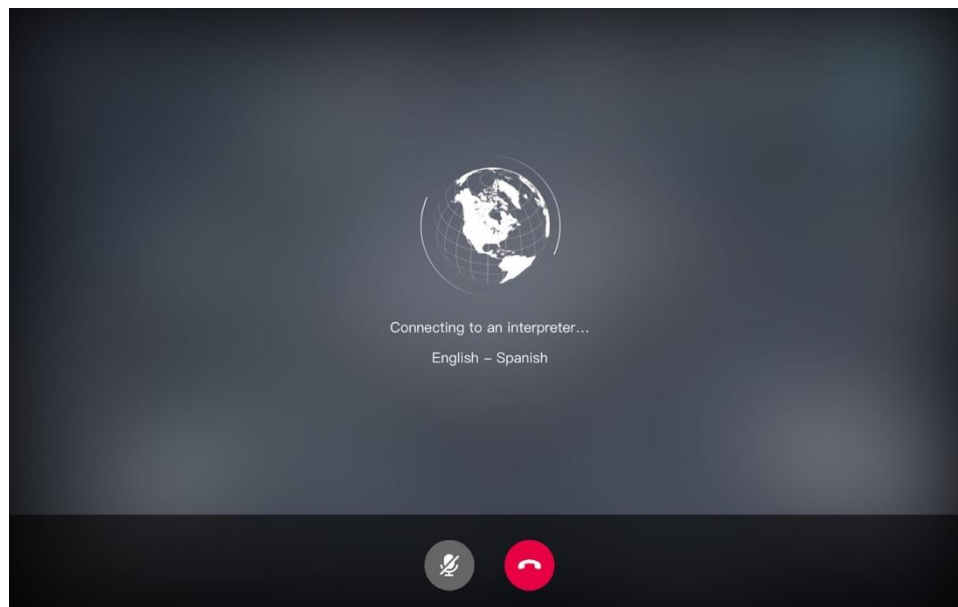

2. Enter the activation code that is provided in the LAP:

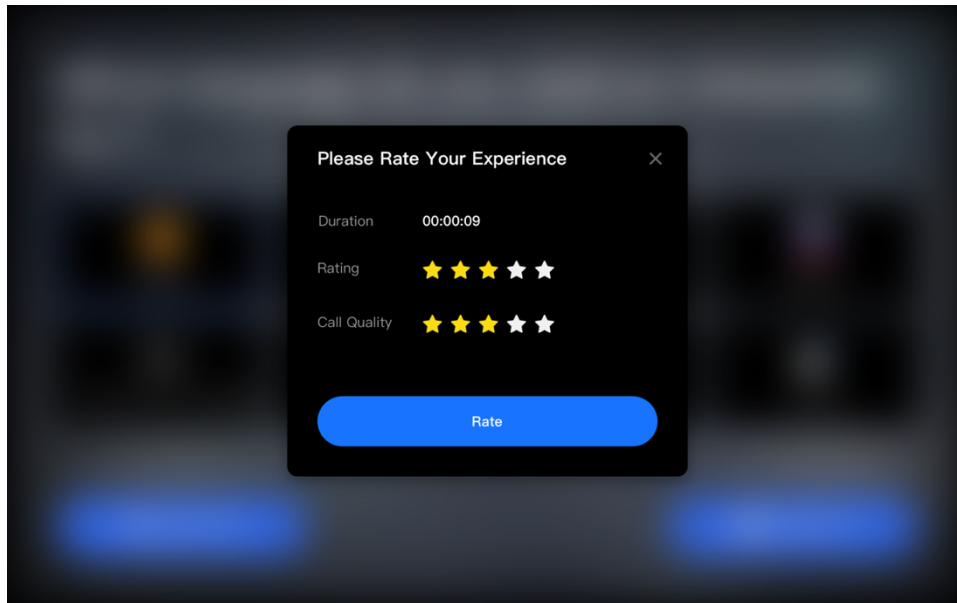

3. Select the language that you need to be interpreted on the home screen:

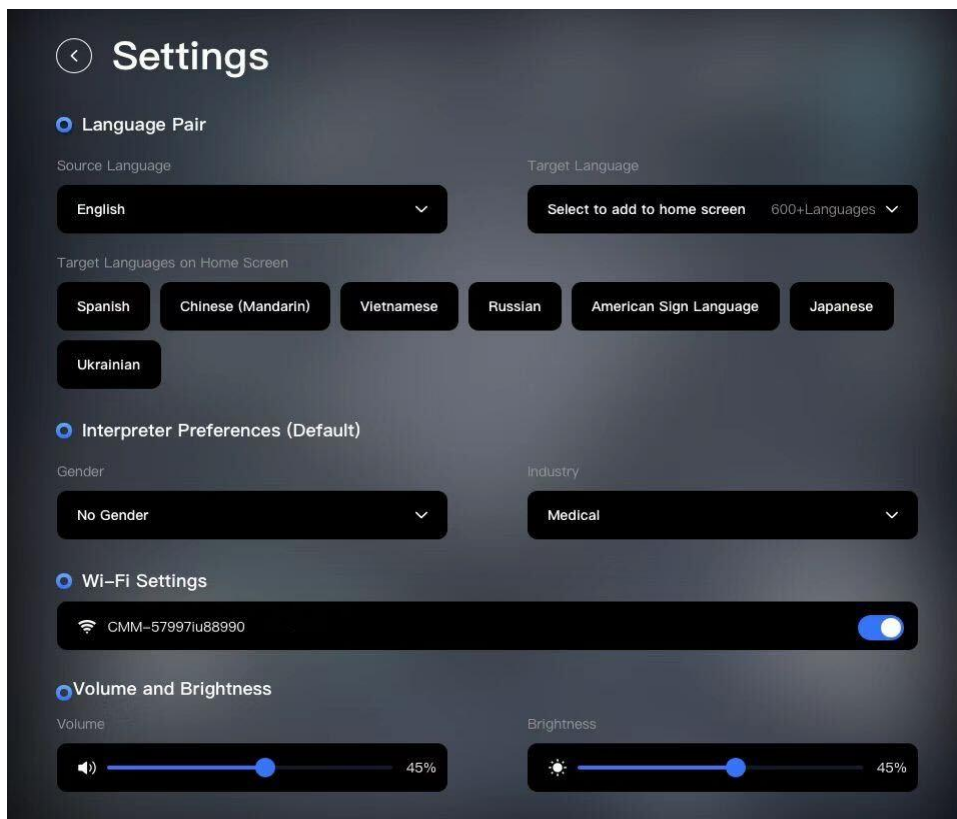

4. Click either **Audio Call** or **Video Call** to connect to an interpreter:

5. When you are finished with the call, rate the interpreter and call quality:

6. Click **Settings** on the home screen to change languages, your industry, or the gender of interpreters:

Change Languages on the Home Screen

1. Click on the **Settings** button.
2. Click on the **Target Language** dropdown and select a new language.
3. The last language in the list under **Target Languages on Home Screen** will be removed, and the new language will be added to the list.

Changing Industry or Gender Preference

1. Click on the **Settings** button.
2. Click on the **Gender** dropdown and select the interpreter's gender.
3. Click on the **Industry** dropdown and select your industry.

Updates

There will be a notification once an update is available. If you are not able to update at that time, you can click cancel and run the update at another time. To update:

1. Click on the **Settings** button.
2. Click on the **App Version**
3. Follow the instructions to download and install the update
